- -Foaming. Non-Foaming, scented (cherry) and non-scented.
- -Very effective for cleaning septic tanks lift stations and bilges
- .May be used to clean all surfaces.
- -Recommended for all vehicles, water craft and air craft.
- -Not harmful to enzymes
- -Delivered on pallets and in cases.

Initial application recommendation

5 gallons of super concentrate (do not rinse).

Apply 1-gallon of super concentrate or 5 gallons @ 50% concentrate as needed (do not rinse)

There are no petrochemicals, no toxin and no citrus.

MC-20 acts by penetrating between the dirt, grease or oil from the surface thus dissolving the bond which causes them to adhere. This allows their removal by simple rinsing. Use of a brush will enhance the ability of the product to clean. Severely encrusted dirt may require additional application.
